

“CAN’T” WON’T HELP.

Are you looking for an education that will help you make a difference?

At UWC, we offer more than just knowledge.

We offer the tools to help change the world, for the better.

For everyone.

We are a global educational movement with 18 schools on four continents.

We believe that education should be a force to unite people, countries and cultures, and to build a better future.

We believe that courageous, optimistic young people should be heard and empowered, rather than told that something “can’t be done”.

We bring together young people who would otherwise never meet. From over 150 countries worldwide.

Our communities and our planet face serious challenges. We need young people who can address them.

IT'S TIME FOR SOMETHING MORE.

This is why we provide:

- An experiential education that will encourage you to think critically, take chances and lead with empathy
- A challenging academic curriculum centred around the International Baccalaureate Diploma programme, highly respected by the world's top universities
- A diverse school community that will help you embrace different perspectives
- Unique schools, located in 18 different countries worldwide
- A supportive community that will give you the tools and confidence to change the world
- Financial support and scholarships for those that need them, so that people from any background can have the opportunity to make a difference

Are you looking to turn your passion into action?
To change the world, and make it better?
To give, rather than give up? There may be a place for you here.

We may not have all the solutions.
But we'll never stop asking the questions.
